

SkillSwap

Student Skill Exchange Platform

Project Description Document

Team Name: B14

Team Members:

- Shreyas Nair – AM.SC.U4AIE25159
- Vaishnav Sunil Nair – AM.SC.U4AIE25157
- Adithyadev B – AM.SC.U4AIE25163

Introduction

SkillSwap is a student-focused digital platform that enables structured skill exchange within the college community. Students can offer expertise in areas such as technical skills, creative arts, academics, and professional development while learning new skills from their peers.

The platform encourages collaborative learning, removes financial barriers to skill development, and promotes interdisciplinary interaction on campus. Aligned with SDG 4 (Quality Education) and SDG 8 (Decent Work and Economic Growth), SkillSwap is designed to be scalable, inclusive, and adaptable for future features such as authentication, scheduling, feedback systems, and smart recommendations.

Selected Theme:

Educational Platform / Technology & Innovation

Aligned SDGs:

- SDG 4 – Quality Education
- SDG 8 – Decent Work and Economic Growth

Purpose of the Website:

- The purpose of SkillSwap is to establish a collaborative knowledge-sharing ecosystem within the college community.
- The platform enables peer-to-peer learning, allowing students to teach skills they possess while gaining access to new areas of knowledge.
- By replacing transactional learning models with reciprocal exchange, the system encourages self-driven growth, communication, leadership, and practical skill development aligned with real-world expectations.

Target Audience:

- Undergraduate and postgraduate students
- Campus clubs and academic communities
- Students exploring interdisciplinary skills
- Final-year students building employability profiles

Page Description:

- Home – Introduces the concept and guides users through the exchange workflow.
- About – Explains vision, mission, and SDG alignment.
- Browse Skills – Displays categorized skill listings with filtering.
- Offer a Skill – Form interface for publishing expertise.
- Request a Skill – Structured form for learning requests.
- Dashboard – Personalized user activity overview.
- Messages / Connect – Communication interface for coordination.
- Contact / Support – Assistance and feedback module.

Real World Application and Optimization:

- Advanced filtering and dynamic search functionality
- Institutional email verification system
- Rating and feedback mechanism
- Session booking and scheduling integration
- Scalable backend-ready architecture
- Future AI-driven recommendation engine

Role Distribution:

1. Vaishnav

- Frontend Design & UI Development
- Pages Responsible:
 - Home
 - About
 - FAQ
 - Testimonials

2. Shreyas

- JavaScript & Core Functionality
- Pages Responsible:
 - Browse Skills
 - Offer a Skill
 - Request a Skill

3. Adithyadev

- User Interaction & Integration
- Pages Responsible:
 - Dashboard (User Profile)
 - Messages / Connect
 - Contact / Support
